

### Per EN 61340-5-1 paragraph 5.5 EPA working practices

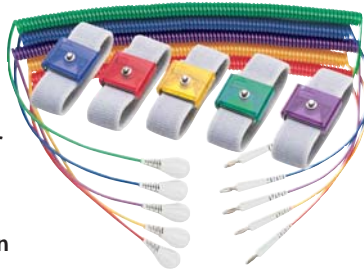

"The primary means of grounding personnel shall normally be by a wrist strap connected to an EBP." Paragraph 5.2.7, "The wrist strap shall consist of a band that fits snugly around the wrist and a cord to connect the band to an EBP. The wrist strap shall incorporate a quick release connection. The cord shall have a termination compatible with the EBP and shall incorporate at least one insulated current-limiting resistor. The total resistance from hand to EBP shall be in accordance with table 1 (Rg 7.5 x 10E5 to 3.5 x 10E7 ohms)."

### Jewel®

#### Adjustable Elastic Wristbands and Rapid Retraction Coil Cords

- **High visibility**  
Bright colours allow supervisor to see that worker is wearing wrist strap
- **Silver impregnated nylon knitted on inside of band for superior conductivity**  
Reliably removes generated static charges
- **Cords feature superior strain relief tests in excess of 50,000,000 cycles, per Bending Life Test (exceeds by over 3,000 times the minimum requirement)**  
Eliminates intermittent failures that can occur with less durable single and dual-wire cords
- **Made in America**  
Superior quality

Wristbands: 60000, 60002, 60006, 60008, 60004  
Coil Cords: 60266, 60260, 60268, 60264, 60262

### Jewel® Dual-Wire Wrist Straps

- **Cords feature superior strain relief tests in excess of 2,000,000 cycles, per Bending Life Test**  
Eliminates intermittent failures that can occur with less durable single and dual-wire cords
- **Relaxed retraction strength PVC**  
More comfortable; will not interfere with wearer's movements
- **Patented (US patents 6,052,053 and 6,205,408) Dual Wire Wrist Strap provides redundancy**  
Even if one dual-wire wrist strap conductor is severed, operator has reliable path-to-ground with other wire
- **Made in America**  
Superior quality

### Premium Adjustable and Fixed Metal Expansion Wristbands

- **Premium metal expansion wristband**  
Comfortable, designed not to pinch or pull hair
- **Fixed sized bands available in three sizes**  
Easy to use - no adjustment necessary. Three sizes provide an excellent fit for most people.
- **Durable metal band**  
Long wearing, easy to clean
- **Superior contact with skin**  
For reliable removal of generated static charges
- **Patented adjustment band changes quickly and easily to any size**  
One size fits all, only one item number to purchase and stock. No "extra" links to lose.
- **Made in America**  
Superior quality

### Jewel®

#### MagSnap Wrist Straps

- **Magnetic snap connection**  
Creates magnetic connection between wristband and coil cord; meets wrist strap requirements of EN 61340-5-1 including safety release force of between 5 and 25 Newtons
- **More reliable design**  
Socket removed, whose miniature springs can wear and fail
- **Includes 4mm steel capped parking station adapter**  
Allows users to use new MagSnap interconnect system with constant monitors using 4mm snap studs for parking station
- **Adjustable**  
Only one item to stock; fits most people
- **Cords feature superior strain relief tests in excess of 1,000,000 cycles, per Bending Life Test**  
Eliminates intermittent failures that can occur with less durable single and dual-wire cords
- **Made in America**  
Superior quality

### Jewel®

#### MagSnap Dual-Wire Wrist Straps

- **Magnetic snap connection**  
Creates magnetic connection between wristband and coil cord; meets wrist strap requirements of EN 61340-5-1 including safety release force of between 5 and 25 Newtons
- **More reliable design**  
Socket removed, whose miniature springs can wear and fail
- **Compatible with 3M and other brand continuous monitors**
- **Adjustable**  
Only one item to stock; fits most people
- **Cords feature superior strain relief tests in excess of 1,000,000 cycles, per Bending Life Test**  
Eliminates intermittent failures that can occur with less durable single and dual-wire cords
- **Made in America**  
Superior quality
